Geography Sample Paper

Time: 30 Minutes

This paper comes in 2 parts:

Part 1 Map Skills with a Map Extract (20 marks)

Part 2 Geographical Themes questions (12 marks)

You must answer all questions in Part 1. You should spend around 15 minutes on this question. Complete all questions on this question paper.

In Part 2 choose one of the four questions to answer. This will include a 5-marker and 7-marker question. You should spend around 15 minutes on this question. Complete the questions on a separate piece of paper.

Please note that Part 1 questions have been taken from the Cambridge Assessment International Examination board's assessment series 2022.

PART 1

Spend around 15 minutes completing this.

You will need to refer to the A3 Map Extract.

Answer all questions.

1 Study the map extract for West Kilbride, Scotland. The scale is 1:25 000.

(a) Fig. 1.1 shows some of the features in West Kilbride. Study Fig. 1.1 and the map extract and answer the questions.

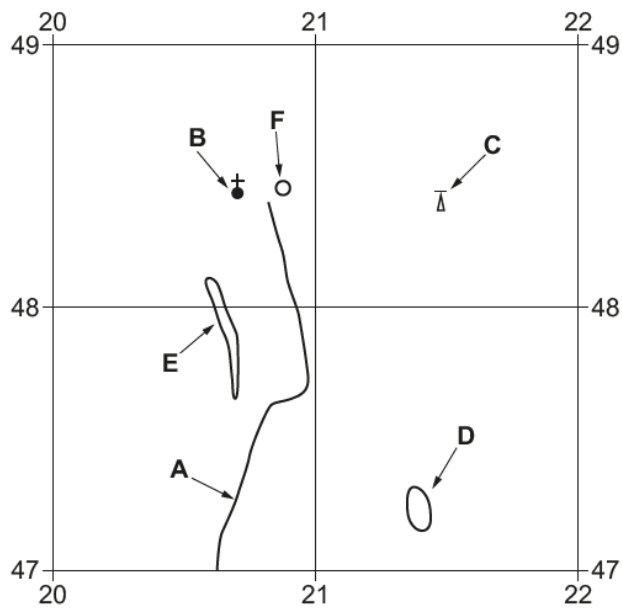

Fig. 1.1

Using the map extract, identify the features shown in Fig. 1.1:

- (i) the type of road at **A**
 [1]
- (ii) feature **B**
 [1]
- (iii) feature **C**
 [1]
- (iv) the height above sea level of the contour at **D**
 metres [1]
- (v) the land use at **E**.
 [1]

(b) Study the railway line which runs north to south from the railway station at **F** shown on the map extract.

(i) Give the six-figure grid reference of the railway station at **F** shown on Fig. 1.1.
 [1]

(ii) What is the distance along the railway line from the railway station at **F** to the southern edge of the map extract?
 km [1]

(c) Fig. 1.2 is a cross-section along northing 495 from 170495 to 200495.

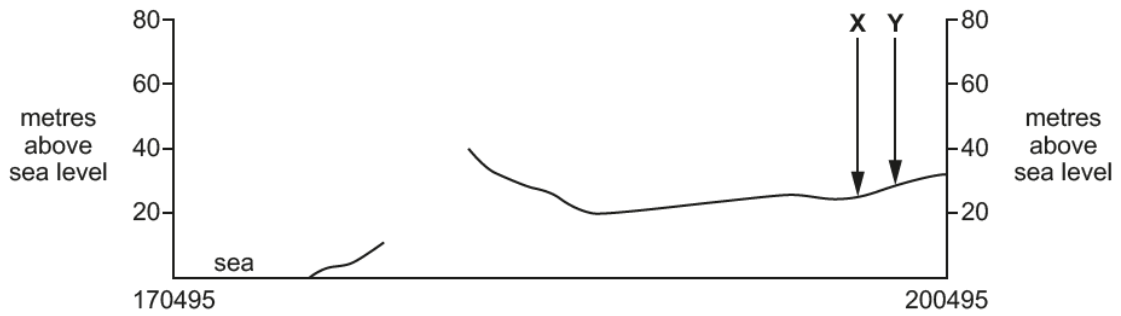

Fig. 1.2

(i) Identify the feature at **X**.
 [1]

(ii) Identify the feature at **Y**.
 [1]

(iii) The cross-section shown in Fig. 1.2 is incomplete. Using information from the map extract, draw a line on Fig. 1.2 to **complete the cross-section**. [1]

(d) Look at the coastline on the western side of the map extract.

(i) Identify **four** tourist attractions along the coastline.

- 1
- 2
- 3
- 4 [4]

(ii) Describe the physical (natural) features of the coastline shown on the map extract.

.....
.....
.....
.....
.....
..... [3]

(e) Describe how relief has affected the route of the railway line.

.....
.....
.....
.....
.....
..... [3]

[Total: 20]

Part 2

Choose one of the three questions to answer.

Please complete on a separate piece of paper.

You should spend around 15 minutes on this question.

1. Coasts

- a. Describe how one erosional coastal landform is created (5 marks)
- b. For a named coastal area, explain three ways it is being sustainably managed (7 marks)

2. Earthquakes and Volcanoes

- a. Describe the differing ways humans can monitor and predict volcanic eruptions (5 marks)
- b. Explain the causes of a named earthquake (7 marks)

3. Population

- a. Describe the negative and positive implications of migration (5 marks)
- b. Explain three possible problems of exponential population growth (7 marks)

4. Tourism

- a. Describe ways in which tourism can be made increasingly sustainable (5 marks)
- b. Explain the advantages and disadvantages of tourism in a named area (7 marks)
